Market Demand of Solar PV Installer (Suryamitra)

Explosive Growth of Solar Power in India

Installed Solar PV Capacity:

- 62.80 GW in 2022, a 27.4% increase year-over-year (Mordor Intelligence)
- 31% growth in rooftop solar installations specifically (IRENA)

Government Ambitions:

- 500 GW of renewable energy by 2030 target
- Focus on rooftop solar through initiatives like Grid Connected Rooftop Solar Program

Drivers of Solar PV Demand

Economic Benefits:

- Reduced electricity bills
- Government subsidies and incentives
- Net metering policies

Environmental Concerns:

- Growing awareness of climate change
- Need for clean and sustainable energy sources

Technological Advancements:

- Decreasing cost of solar panels and equipment
- Increased efficiency of solar technology

Rooftop Solar – A Key Market Segment

Fastest-growing segment globally:

- 49% increase in 2022, projected to continue. (DTE's research or publications on the Indian renewable energy landscape)

Benefits for Residential & Commercial Consumers:

- Energy independence and security.
- Reduced reliance on traditional power grids.

Opportunities for Solar PV Installers (Suryamitra)

Skilled Workforce in High Demand:

- Rapid market expansion creates job opportunities.
- Specialized training programs crucial to bridge skill gap.

Government Support:

- MNRE initiatives promoting rooftop solar installations.
- Potential for Suryamitra accreditation/recognition.

Physical Achievements: Data on achievements of solar installation in India as of April, 2024.

Sector	Achievements (1st April 2024-30th April 2024) FY-2024-25	Cumulative Achievements (as on 30.04.2024)
I. Installed RE Capacity (MW)		
Wind Power	275.28	46161.79
Solar Power*	824.26	82637.86
Small Hydro Power	2.00	5005.25
Biomass (Bagasse) Cogeneration	0.00	9433.56
Biomass(non-bagasse)Cogeneration	0.00	921.79
Waste to Power	0.00	249.74
Waste to Energy (off-grid)	5.50	341.56
Total	**1107.04**	**144751.55**

***Solar Power (Cumulative) : 82.64 GW**

- Ground Mounted Solar Plant : 65.01 GW
- Grid Connected Solar Rooftop: 12.01 GW
- Hybrid Projects(Solar Component) : 2.57 GW
- Off-Grid Solar: 3.04 GW

Conclusion

The Indian solar PV market is experiencing phenomenal growth, particularly in rooftop installations.

This creates a significant demand for skilled and qualified Suryamitra Solar PV Installers.

By capitalizing on government support and addressing the skill gap, Suryamitra has the potential to be a major player in this booming industry.
